Punto. Inspiration through design

If you love the interplay of form and colour, Punto is just your style. Cool, fiery or in subdued pastels, the decors of Punto exhibit a rich palette of styles. Floral patterns adorn the table tops with blooming fantasies: romantically delicate or in high-contrast retro style. Whatever your preference, this richly varied collection has something for you.

Vivo. The joy of colours

It's entirely up to you whether you would like to seduce your guests with gentle powder tones or make an impact with bold colours. Vivo puts no limits on your imagination in applying great accents. You can combine Vivo with matching chairs for a harmonic look, create attractive contrasts or select a different colour for every table. With Vivo, the world gets just a bit more colourful.

Arte. Tables as art

The Arte collection graces your tables with beautiful designs. Harmonic, atmospheric colour compositions recall water colour and batik techniques with delicate lines and shapes accentuating larger elements. Taking creative table design to a new level: individuality and artistic sensibilities shine through in this collection. Decors as abstract art – that is Arte.

Classic. Table culture in pure form

The tavola table top, with its stylish bordering began with the Classic collection. Muted, restrained colours in warm to cool tones, classic decors in stone or wood styles and a high-contrast border – these are the elements of the Classic series. Create a Vienna coffee house atmosphere or the ambience of an Italian gelateria with these elegant decors. Additional decor combinations are possible on request. Most decors of price group 1 can be combined together.

Studio. A special kind of charm

Studio takes up the classic style of Classic and alters it in one significant detail: shifting of the stylish border further into the table. The surface is interrupted for a delicate look that lends a charming hint of extravagance. Studio – for the love of something special.

Useful information about WERZALIT table tops

WERZALIT table tops are easy to care for, robust and long-lasting. We offer here some helpful information to ensure that you will enjoy your table tops for many years to come.

Heating by the sun

WERZALIT table tops that are exposed to significant amounts of sunlight can temporarily deform into a concave shape. The corners bend upward and the middle downward.
As a preventive measure to counteract this change in shape, the table tops have been produced with a slightly convex shape. When the table tops are used, this deformation recedes such that it is hardly noticeable at all.

For locations exposed to extensive sunlight, we recommend choosing lighter decors or our Classic design with dark border but with a matching light decor in the centre of the table top. Dark table tops with larger square and rectangular dimensions heat up so much under heavy sunlight that the resulting deformation is irreparable. These table tops should only be used in shaded areas. Such decors are marked with [3] . If you nevertheless wish to use decors marked in this way in unshaded areas, please consult your customer advisor. We will offer you a custom solution for this purpose!

WERZALIT table tops as such are not quite plain at all. Lasting deformations may occur (reaching up to ±4 mm/1 m Table top-length, longitudinally-measured in top-center). These deformations are judged to be uncritical! Therefore only limited utilization of the table tops when stringing together some tables.

Decors

There may be slight differences between the decors shown in the leaflet and the real table top-colours. Kindly count on slight deviations in colour if you extend existing projects by new table tops. We recommend to ask for samples.

Special decors

Decors produced via special printing processes have properties that live up to our standards. However, they should not be subjected to weather influences year-round. Decors with special printing processes are marked with [4].

Storage

Tables may not be stored "upside down" outdoors because the edge shape prevents water from running off.

Durability

The durability of our table tops satisfies the requirements of DIN EN 438 for kitchen work surfaces. However, they are not infinitely scratch-proof. Hard, rough, sharp-edged or mineral-based objects, such as metal, stoneware or unglazed porcelain can cause irreparable scratches and scrapes on the table tops. However, this does not impair their usability or long service life. For cleaning just use water with rinsing agent or abrasion-proof cleaners.

The display with 18 table top decors is available for purchase. If you are interested, we would be pleased to create an individual offer. Please direct inquires to orders@werzalit.com
